For Immediate Release

**FENESTRA, INC. NAMED AS FINALIST
IN 3RD ANNUAL STEVIE® AWARDS FOR WOMEN IN BUSINESS**

Stevie Award Winners to Be Announced in New York in March

NEW YORK, NEW YORK – January 10, 2007– Fenestra, Inc. was named a Finalist today in the Technology Innovator of the Year category in The 3rd Annual Stevie Awards for Women in Business.

Fenestra, Inc., women owned and lead, was honored as a Finalist from over 600 entries submitted for consideration in more than 40 categories for leading edge contributions to the field of technology. Guiding Fenestra, Inc. through an exciting period of rapid growth and innovation has been President and CEO, Sandra Hartog, Ph.D.

Dr. Hartog has over 20 years experience assessing and coaching top executives in leadership positions and designing strategic HR programs for Talent Management. Three years ago, when it came to evaluating the state of the Human Resources industry, she saw embracing technology as the key to answering clients' needs for solutions that provide excellent return-on-investment. The creation of Fenestra, Inc., the HR Technology Affiliate of Sandra Hartog & Associates, was the result of that research. Fenestra, Inc.'s first product was ***E-valuation***™.

E-valuation™ is an award winning assessment solution that uses web technology to create a scalable, cost-effective, engaging, and highly realistic job simulation "test drive" designed to identify outstanding employee talent for selection and development purposes. In contrast to typical job interviews or other types of tests, Fenestra, Inc.'s web-based job tryouts consist of a series of job-related activities in a simulated organization. Participants are given an opportunity to perform a particular job and demonstrate how they work. Additionally, prospective job candidates can tryout the job to see if it fits, while potential employers can tryout the candidate.

Delivering 'day-in-the-life' job tryouts into participants' computers has revolutionized the context in which assessment centers have traditionally resided, providing all the benefits of traditional assessment centers and alleviating many of the shortcomings. **E-evaluation™** solves many logistical problems associated with traditional assessment centers by moving components on-line or over the phone—allowing candidates, assessors, and clients to participate from anywhere in the world, trimming non-essential costs by as much as 50%.

Finalists for the Stevie Awards were chosen by business professionals worldwide during preliminary judging. Members of the Awards' Board of Distinguished Judges & Advisors and their staffs select Stevie Award winners from among the Finalists during final judging. Nicknamed the Stevies for the Greek word "crowned," winners will be announced during a gala event in New York in March. Nominated women executives and entrepreneurs from the U.S. and several other countries are expected to attend.

Details about The Stevie Awards for Women in Business and the list of Finalists in all categories are available at www.stevieawards.com/women.
